Bogus Robo Call Released today misleads citizens

Bogus Robo Call Released today misleads citizens

A robo call was sent out today in Harnett County about a property tax increase of over 7 cents by the Harnett County Commissioners. Sources are reporting that this robo call was done as a political ploy to deflect the recent House Bill 1108 that the County Commissioners spoke out against that would give more local power to the state legislators.

There is a proposed tax increase in this year's budget that is set at 5.5 cent, for example if you own a home that is valued at $150.000 you would see your tax bill go up by $6.88 per month. The increase helps with the building of new schools, public safety and other county services.
