May 7, 2016

Dear Families of Anderson Creek Club Charter School.

As of May 6, 2016, Mr. Ozie Hall's tenure as Administrator of the Anderson Creek Charter School has terminated.

To aid us with the transition, we have employed the assistance of Dr. Tom Miller. For many years, Dr. Miller was the State of North Carolina Charter School subject matter expert. While he was at the Department of Public Instruction, he managed the program and conducted the extensive training required of our board. He now leads a company dedicated to assisting charter schools. He and his company will be on site two to three days a week during the coming months. For further information on Dr. Miller please see the website:

Ms. Grace Merkle, who has recently retired after many years with the Department of Defense's education program, will act as interim Lead Administrator.

There will be no interruption in regular school activities.

Sincerely,

According to a letter sent to parents of students attending Anderson Creek Charter School, Mr. Ozie Hall the administrator has been terminated. This comes on the heels of actions taken by the NC Attorney General's office against Mr. Hall. Mr. Hall was administrator of another charter school in North Carolina and allegations were put fourth about mishandling of state funds. The investigation is ongoing with the NC Attorney General's office.
